

## Product Group KGG/V

Rectangular articulated-glides with steel thread and ball

### Standard Colours

- black

### Material

- Ball stud: zinc-plated steel
- Base: Polyamide (PA)

- The side impact absorption of the parts is limited.
- When used as intended, the risk of dislocation must be checked.
- SO = the ball screw has no external hexagon (different from the standard series for the thread diameter M10)
- ISK = Hexagon SW 4 in the threaded end
